IX. PUBLIC COMMENTS

Mr. Hibson thanked the members for the beautification and drainage improvements to the community and the following topics were discussed:

Roadway Signage

Will the Committee consider installation of a road barrier to prevent a left turn into the Pine Ridge Crossings shopping center?

Culvert Drainage

Collier County suggested he contact the M.S.T.U. to request cleaning of a clogged culvert running under his driveway. The blockage was potentially caused during excavation work performed by Florida Power and Light (FPL).

Mr. Schumacher noted that culverts in front of homes had previously been maintained by the property owners. He will plan to walk the area with Mr. Hibson and verify the MSTU policy for culvert blockage to ascertain responsibility.

Roadway Paving

Mr. Schumacher responded to Mr. Hibson's query referencing a tree root uprooting pavement on Woodshire Boulevard noting:

- In January 2023, Mr. Molloy, Preferred Materials, evaluated the condition of paved roads in the community and determined the roadways have two (2) to three (3) years useful life remaining.
- The valley gutter/roadway on Woodshire Lane sank because of a large tree root growing under the pavement.
- An agronomist will be consulted to determine if the above referenced tree root can be removed without damaging the tree and if the root is removed, the area will be repaved.
- Preferred Materials submitted a cost quote in the amount of \$10,611.00 to excavate and repave a fifty (50) foot section of the road, including the area with the tree root, between light poles thirty-three (33) and thirty-four (34).
- The tree work, including trimming, would be a separate contract.
- The Committee will decide if the project should be undertaken soon or postponed to coordinate with paving of a larger segment of the roadway.

X. ADJOURNMENT

There being no further business to come before the Committee, the meeting was adjourned by the Chair at 10:59 A.M.
