### Improvement Districts and MSTU Golden Gate Beautification MSTU (153/1621)

#### Notes:

Budget guidance specified that MSTUs without advisory board oversight would be limited to a rolled back rate position unless staff presents a compelling reason for additional funds. MSTUs with advisory board oversight can consider tax rates ranging from tax neutral (rolled back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This MSTU has advisory board oversight and the advisory board has requested that the millage rate remain at the cap of 0.5 per \$1,000 of taxable value pursuant to Ordinance 96-51.

#### Forecast FY 2023:

Forecast expenditures include regular median landscape maintenance as well as electricity, irrigation, lighting, utilities and supplies.

#### Current FY 2024:

Operating expenses are typical for this MSTU and include engineering design services and landscape fees. Other operating expenses include fertilizer, chemicals, mulch and supplies. Capital outlay allowance for future improvements and renovations is \$1,928,200.

#### Revenues:

Taxable value is \$1,284,679,735.45 an increase of 5.75% over last year. The rolled back rate for this district totals 0.4418 per \$1,000 of taxable value. Ordinance 96-51 places a cap on the millage rate at 0.5000 per \$1,000 of taxable value. Consistent with the advisory board's recommendation, this budget is sized around the maximum millage rate which will generate \$642,339.87 in property tax revenue.
